

April 9, 2024

We have been very satisfied working with AI from Copier Consulting. He knows the copier business and is familiar with many of the vendors. He also understands what schools need. Thanks to AI's thorough analysis of our options, we were able to make an informed decision that will save us money. Had we not partnered with AI and Copier Consulting, we definitely would not have considered the option we ultimately selected. AI did all the work for us, saving us a lot of time and back and forth with vendors. I would recommend contacting Copier Consulting the next time your copier contract comes up for renewal.

Sincerely,

Kevin Vos
